Mitsubishi T200 Keyboard Replacement

How to replace the rubber keyboard on a T200 phone.

Written By: Katherine

INTRODUCTION

This short, simple guide will help you replace the rubber keyboard buttons on a Mitsubishi T200 cellphone.

TOOLS:

- Small Phillips Head Screwdriver (1)
- small flat head screwdriver (1)

PARTS:

- New Rubber Button Keypad for Mitsubishi T200 (1)

Step 1 — Keyboard

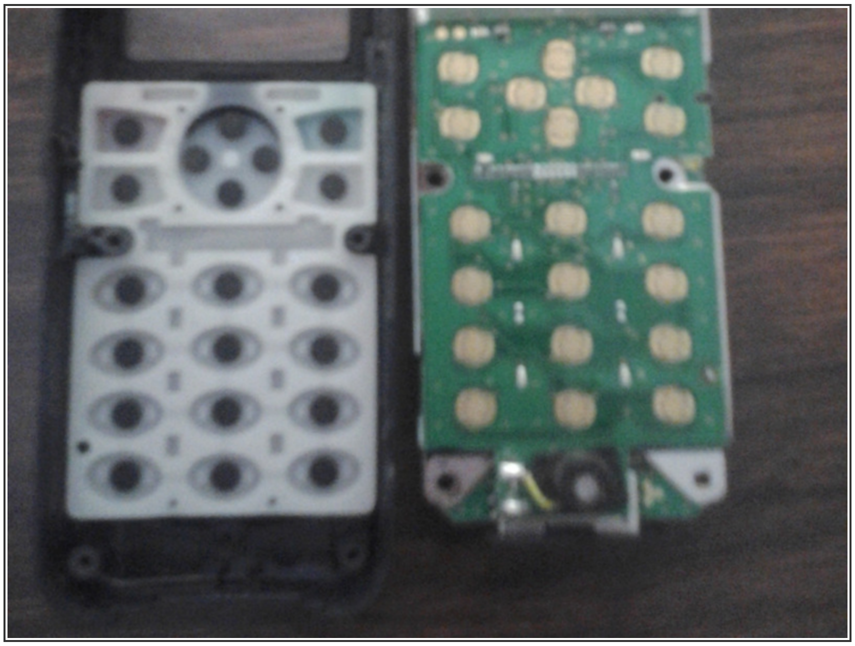

- Begin disassembling the phone by removing the back of the phone and the battery.

Step 2

- Remove the back plate by removing the 4 screws in the back plate using an appropriately sized Philips screwdriver

Step 3

- Pry the font plastic component from the “motherboard” component.

Step 4

- Take out the old rubber keypad and replace with a new one.

Step 5

- Reassemble by following previous steps in reverse order.

To reassemble your device, follow these instructions in reverse order.
